The relationship between Maite, a dutiful wife and her incarcerated husband Vincent grows increasingly complicated with the arrival of Jean that ends up in a most unusual love triangle. Vincent is currently locked-up behind bars. Though Maite does indeed visit her husband on a regular basis, her commitment to a monogamous relationship is drawn into question as she soon finds herself in a passionate love affair with Jean, the warden of the Jail where Vincent is locked up. When Maite learns that her newfound lover is recording their encounters for the benefit of Vincent - who has explicitly enlisted the aid of Jean in doing so - the motivations of all three are drawn into question.
