An ensemble of three stories. *Memories*, is the story of a young widow Kuhu, who is engulfed by the memory of her diseased husband. *Soul* tells the story of Dhritin, a painter who is obsessed with the image of a girl who frequents his dreams. The third story, *Future* is about two friends who are always engaged in the age old debate on atheism and faith. The argument of natural and supernatural goes on and on until they finally come to face the ultimate truth of life.
