Editing: Mark Bement, Charles Kramer, Matthew Moul, Jillian Twigger Moul, Andrew Ecker, Ivan Ladizinsky

Narrator: Queen Latifah

This documentary captures the words and voices of the emerging new generation of poets in the United States. More and more American teenagers are picking up the pen and taking hold of the microphone with passion, intelligence, creativity, honesty and power. These voices of 21st Century America transcend race, class, gender, orientation, and politics as they show the world what the next generation of leaders looks and sounds like.
